Career Objective

Peace, mercy and blessings of God, to the recruitment team at Rayyan Company,

I am Emad Abu Tafesh, a graduate student in the field of the Faculty of Arts, Fundamentals of Programming courses.

I am delighted to apply for the advertised internship opportunity as "Frontend Development Intern".

I have a basic knowledge of (HTML, CSS, JavaScript), and I have personal experiences learning React and building simple web pages. I'm also very interested in developing my skills in Figma and other modern tools, and I'm looking to turn my passion for programming into real hands-on experience.

I have the ability to self-learn, commit to teamwork, and attention to detail, and I believe this opportunity will be a strong start to my career.

I seek to develop my skills in Frontend Development by joining a practical internship program that allows me to gain real-world experience and contribute to real projects.

Thank you for your time, and I look forward to the opportunity to join your esteemed team..... Sincerely.
